Art Unit: 3754

1. The following is an examiner's statement of reasons for allowance: regarding claims 1-14, all of the claims recite a finger recess extending diagonally between the first pair of side walls and positioned towards a first one of the corners. This, in combination with the other claimed elements, is not found in the prior art. With regards to claims 15-24 the rounded corners with the handle recesses in opposing corners and the pouring spout being aligned with the other corners, in combination with the other claimed elements, are not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reed et al. and Richter et al. show other dual handled containers; and Rohr et al. shows a container with an insertable pouring spout.

3. Please note that formal drawings are now required as the ones originally submitted clearly have rough lines and numbering. Further, numerals "15a" and "15b" should be added to the drawing figures as they are referenced in the specification.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Kaufman whose telephone number is (703) 308-0266. The examiner can normally be reached on Monday-Thursday, 5:30AM-2PM.
